Hon. W. J. Bryan, Lincoln, Neb:

"Dear Sir-I congratulate you on your nomination rt Chicago. I think the country is to be congratulated also. I need not assure you that your nomination was more than satisfactory to me. I think we shall be able to consolidate the friends of free silver in your support and if we do this I believe you will be elected although I do not overlook the tremendous power that will be put against us in this

All the money power and organized wealth, corporations and monopolies of all kinds will be against us. Justice is on our side and this is the cause of the people. It is a contest for industrial independence and for freedom from the domination of foreign powers and capitalists, and it does not seem possible in such a contest before the American people that justice should fail and wrong prevail. I think I can promice you the cordial support of western eilver men who have hereto fore acted with the republican party, and if you get that I think all the western coast and inter-mountain states will be with you, I will not offer suggestions to you save to advise that you make no pleages or promises so you may go into the great office of president of the United States without the embarasement that follows pledges and promises, even if such as may be properly carried out. It will afford me pleasure to place myself at the disposal of the national committee to make such speeches in your behalf as my health will permit, where and when they may think I will do good. I am very respectfully,

H. M. TELLEZ."
